## PROBLEM STATEMENT

---

To create an academic networking portal that helps students to communicate with members of their own academic community domain. Also the Portal focuses on providing information and guidelines to future students.

The three main users of the portal are

- Students
- Institutes
- Global Visitors

The portal allows the user to explicitly use features depending on their identity as student, institute or Global Visitors. This web portal is divided into three major sections as described below

- **Communities**

- Students in the system are categorized into different communities depending on their institute, School and area of study.

- **Institutes**

- This includes multiple departments of the institutes and also the student Union.

- **Global Visitors**

- Individuals seeking information to make Toronto as their future study destination.

The portal has different features with respect to the above mentioned sections. Each section has their own set of exclusive features that would help the students to explore unique information in each and every section.

These are the sectional features:

- **Communities**

- Students are grouped in an exclusive community by unique User-Id and password.
- Students are allowed to view all the community members along with their contact information.
- Students can volunteer to help their community members with their skill sets.
- Students are able to search people with specific skillsets within their community for help.

- Students can buy, sell or exchange academic notes or used books.
- Students can read testimonials and success stories of graduated students of the same

➤ Institutes

- Each institute has its own set of communities and is allocated with a specific set of usernames and passwords depending on the number of departments and hierarchy of users.
- Institutes can post news and upcoming events for its own set of communities.
- Institutes are able to inform their students about offers and promotions within their campus.

➤ Visitors / International Students

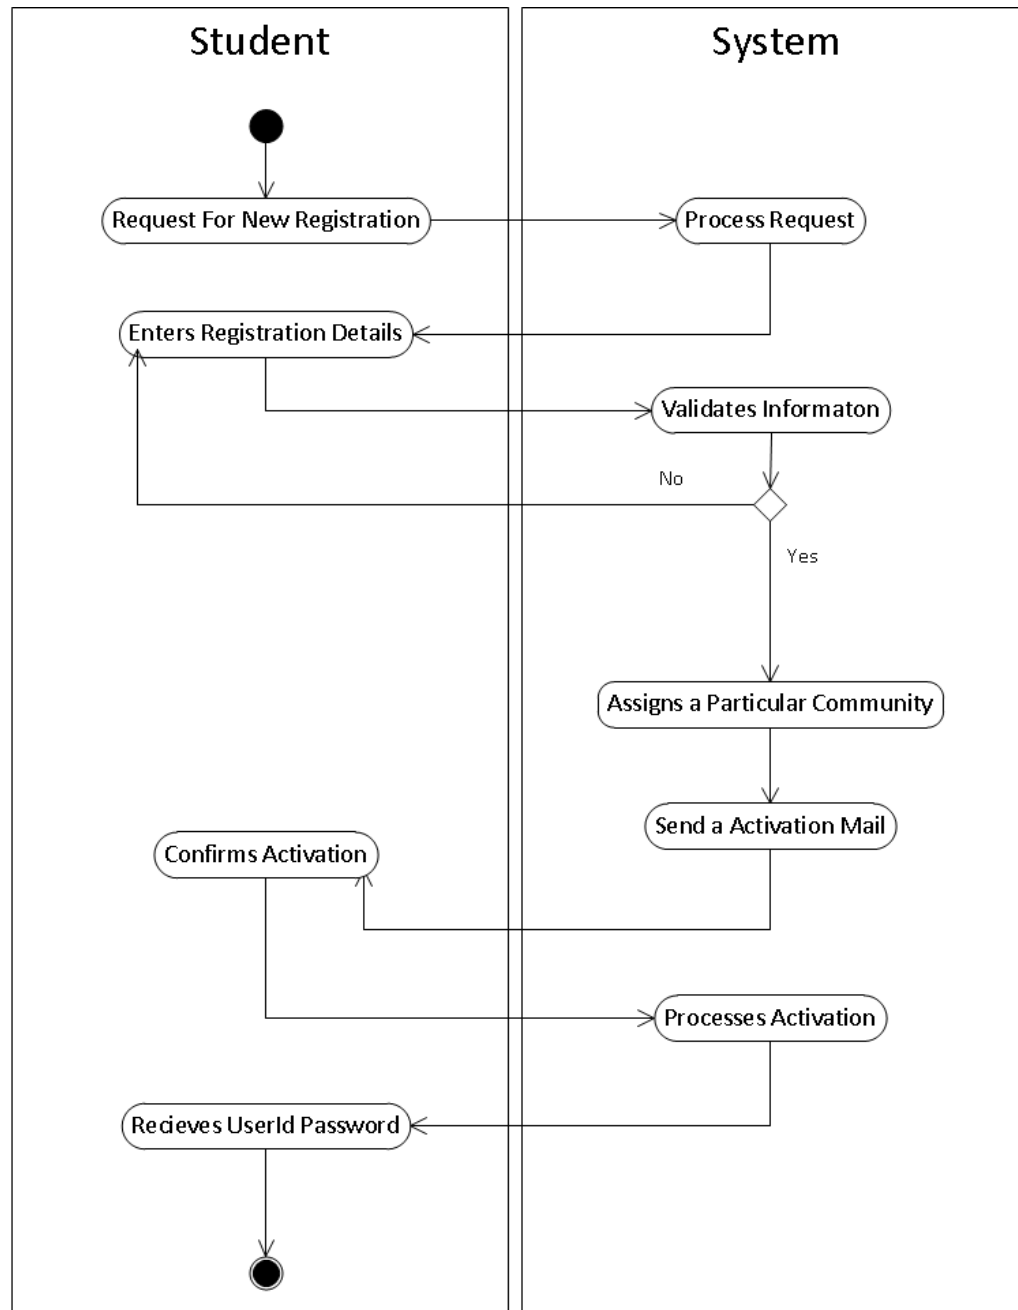

- In this section viewers have to provide their Name, Country and Email to view the information.
- This section provides general information about Toronto in terms of Government Rules & Regulations, Transit System, Education System, Banking System, Accommodation System and Telecommunication system.

## PORTAL PAGES, PROCESSES AND ACTIVITY DIAGRAMS

### REGISTRATION

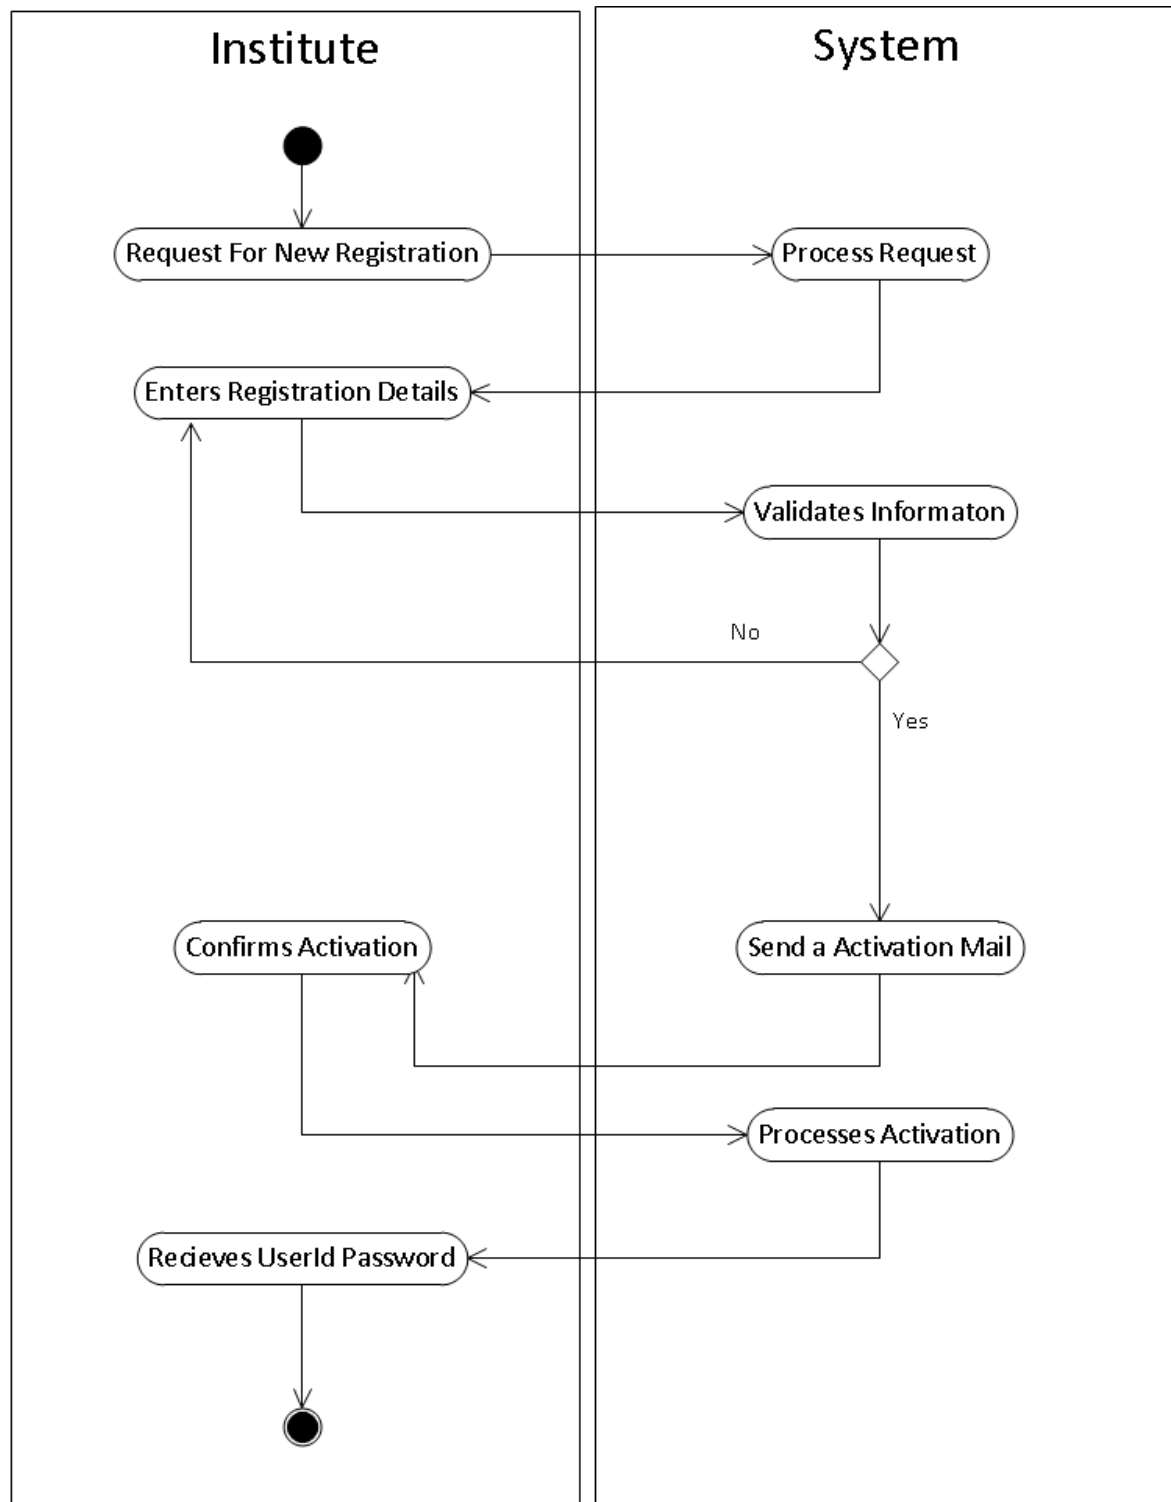

#### STUDENT REGISTRATION

This registration module is for students, where they fill in the required information and the system supplies them with a user ID and password after validating their details.

## INSTITUTE REGISTRATION

This registration module is for Institute, where they fill in the required information and the system supplies them with a user ID and password after validating their details.

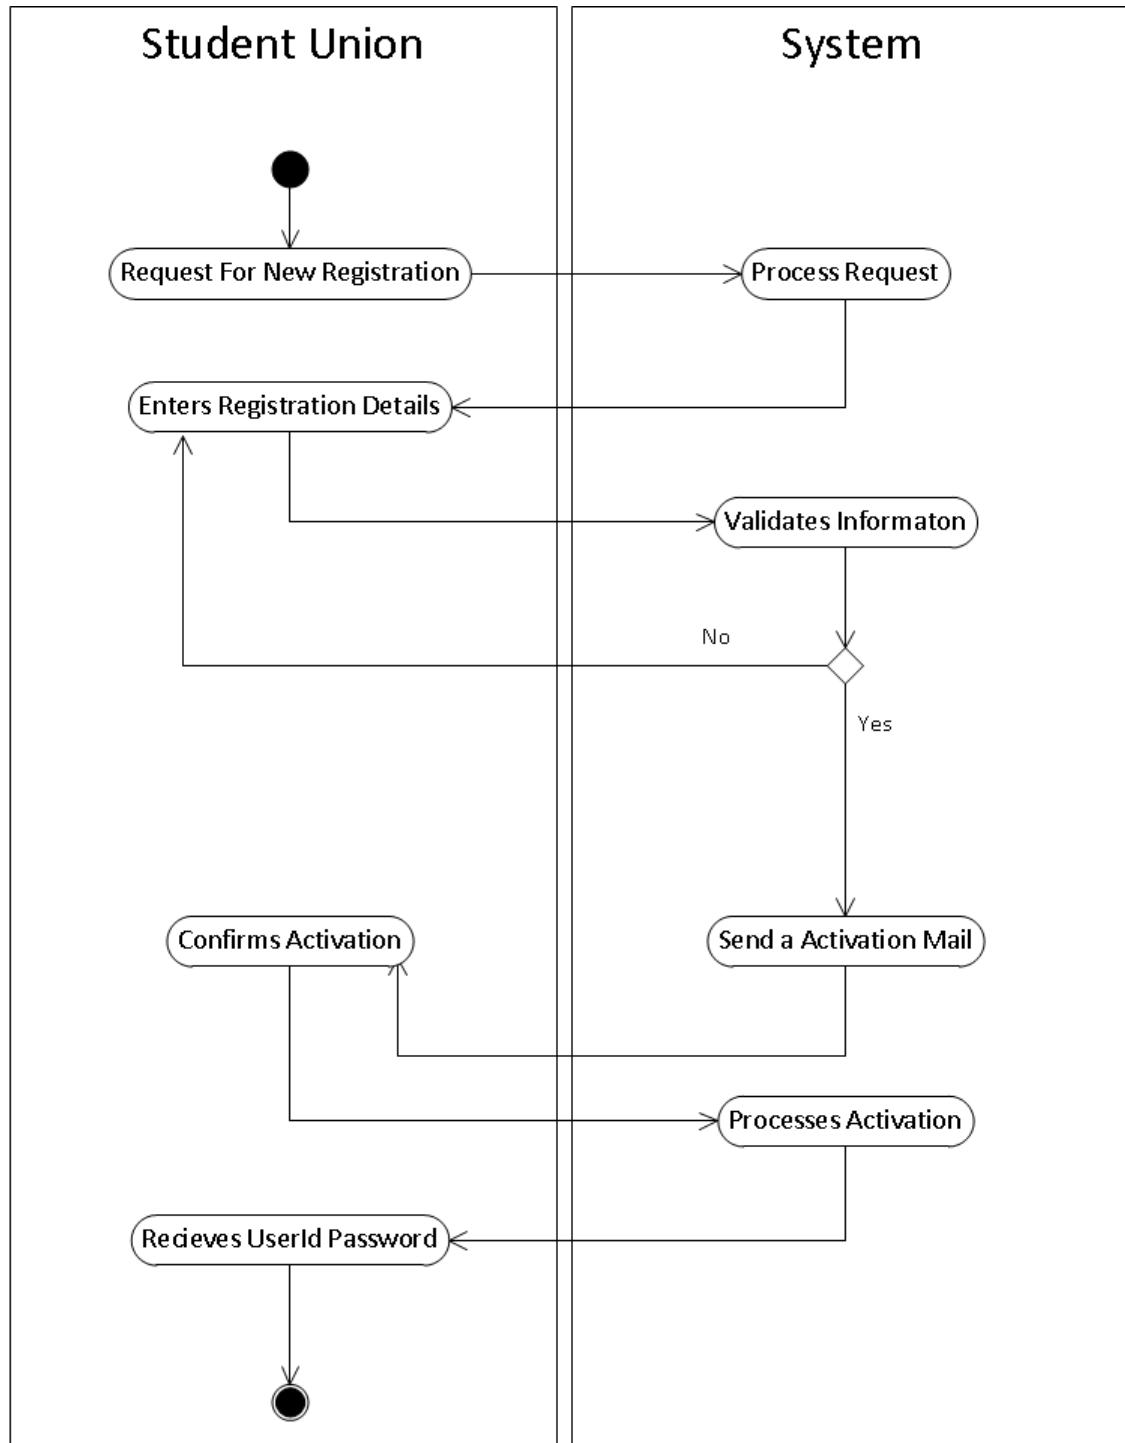

---

**STUDENT UNION REGISTRATION**

---

This registration module is for Student Union, where they fill in the required information and the system supplies them with a user ID and password after validating their details.

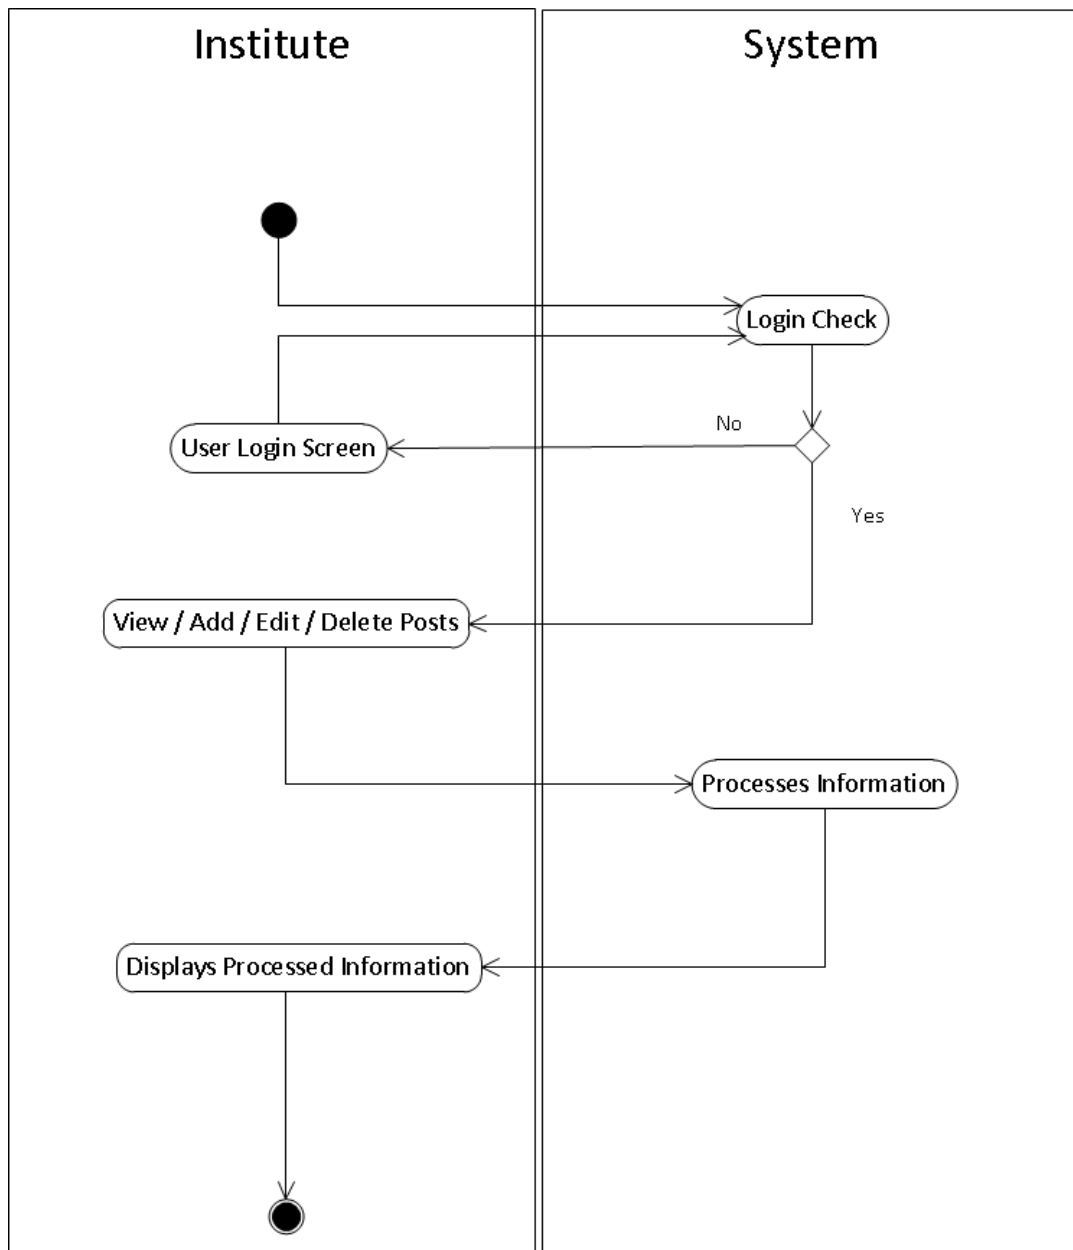

## NEWS AND EVENTS

## VIEW/ADD/EDIT OR DELETE POST

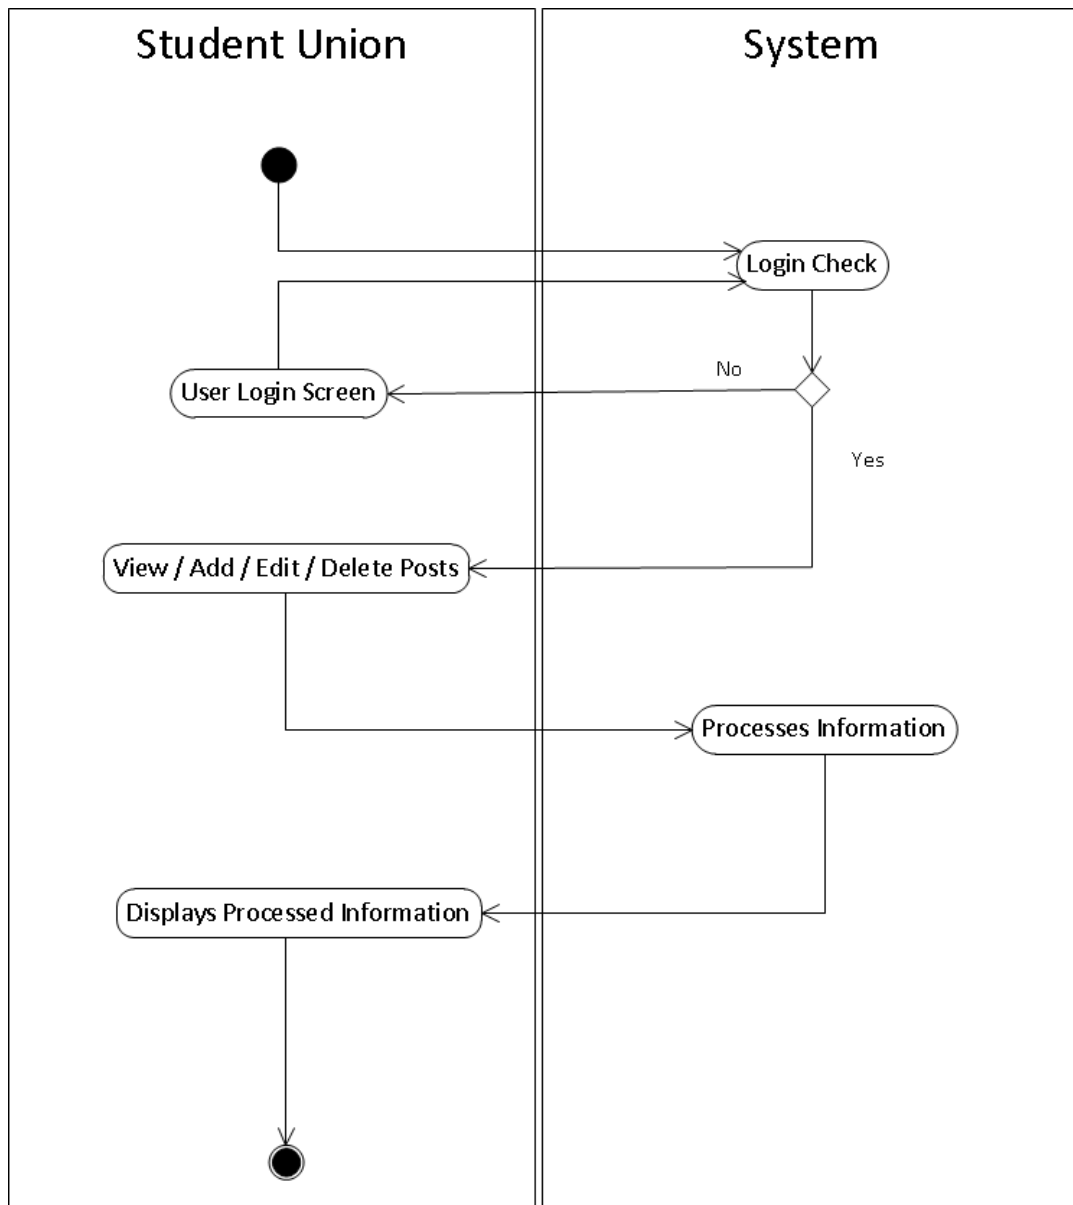

## INSTITUTE CAN POST NEWS AND EVENTS

Institutes here can view/add/edit or delete entries to post news and events.

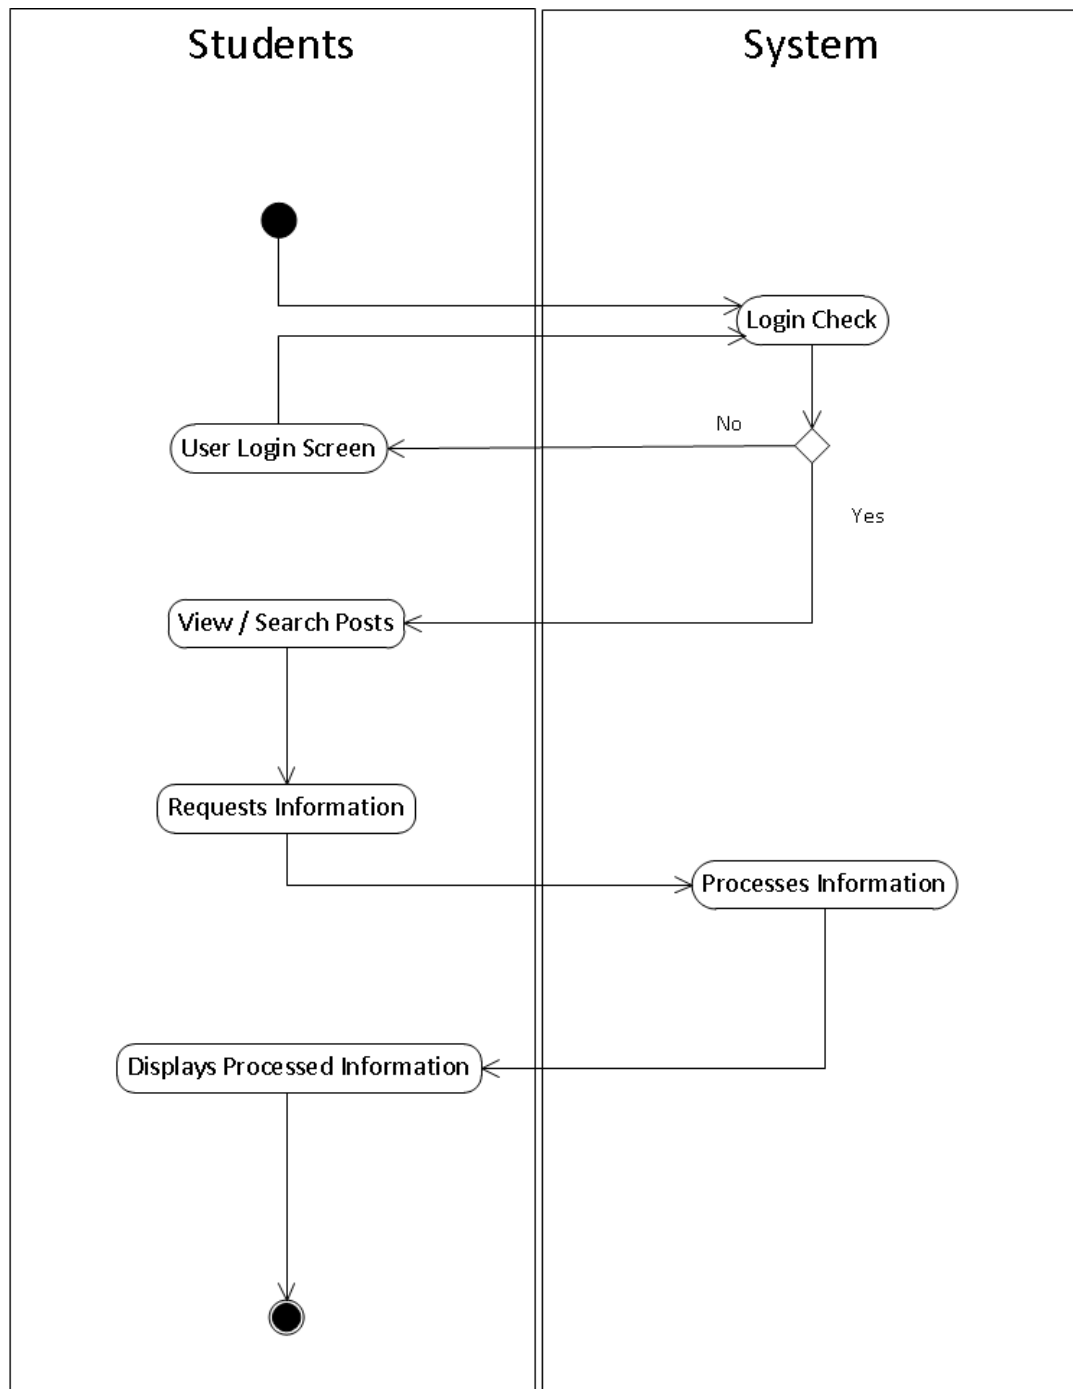

## STUDENT UNION CAN POST NEWS AND EVENTS

Student Union here can view/add/edit or delete entries to post news and events.

## STUDENTS CAN VIEW ALL THE POST

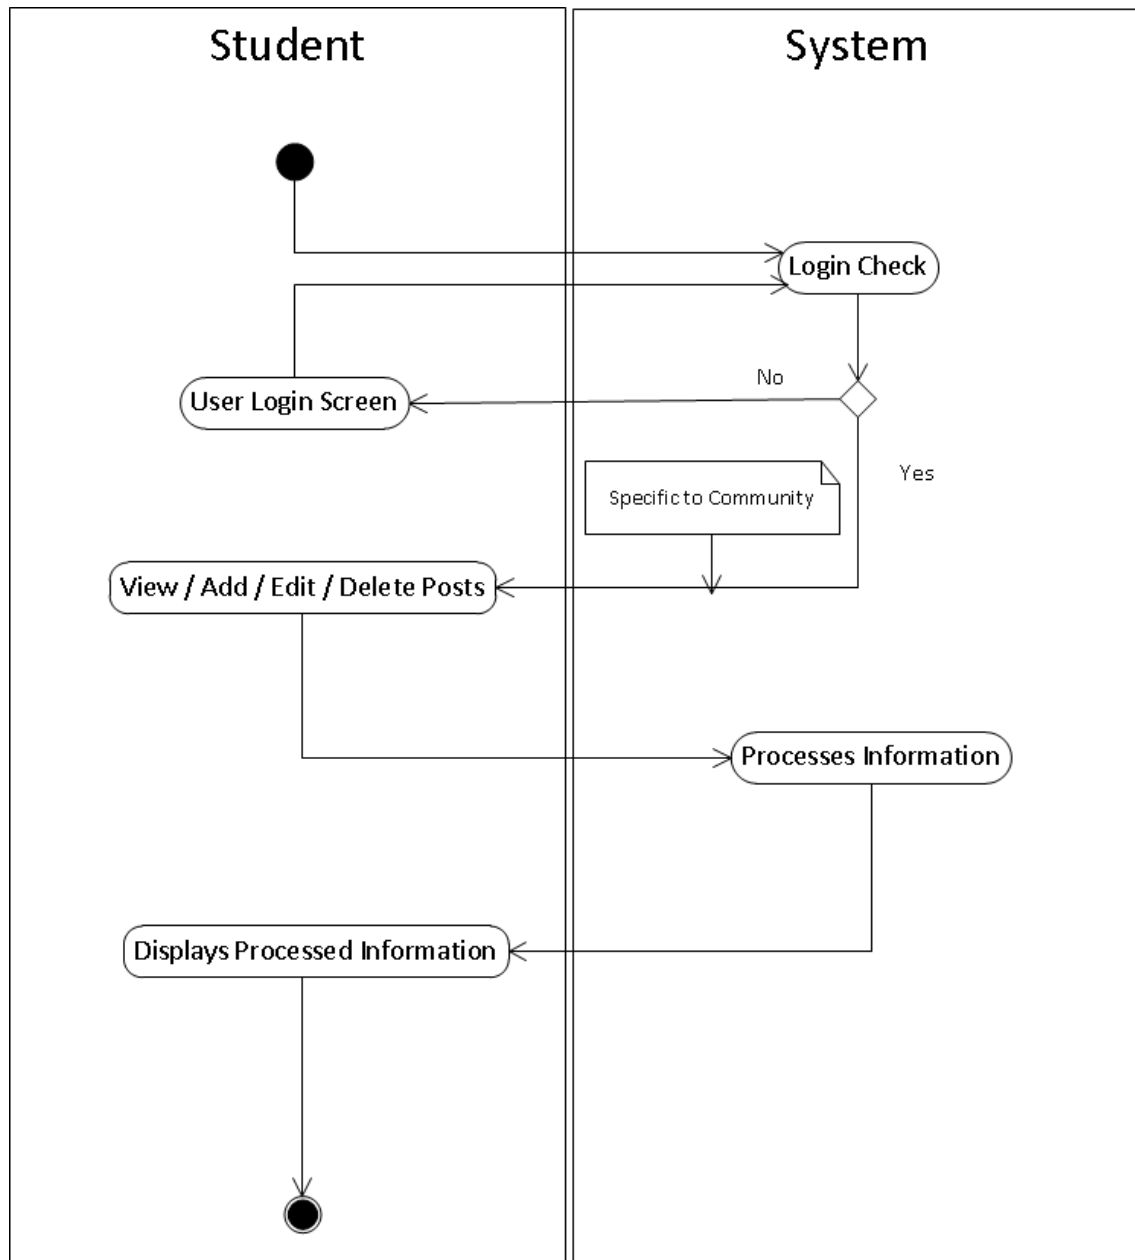

Students here can view news and events.

## COMMUNITY JOINT

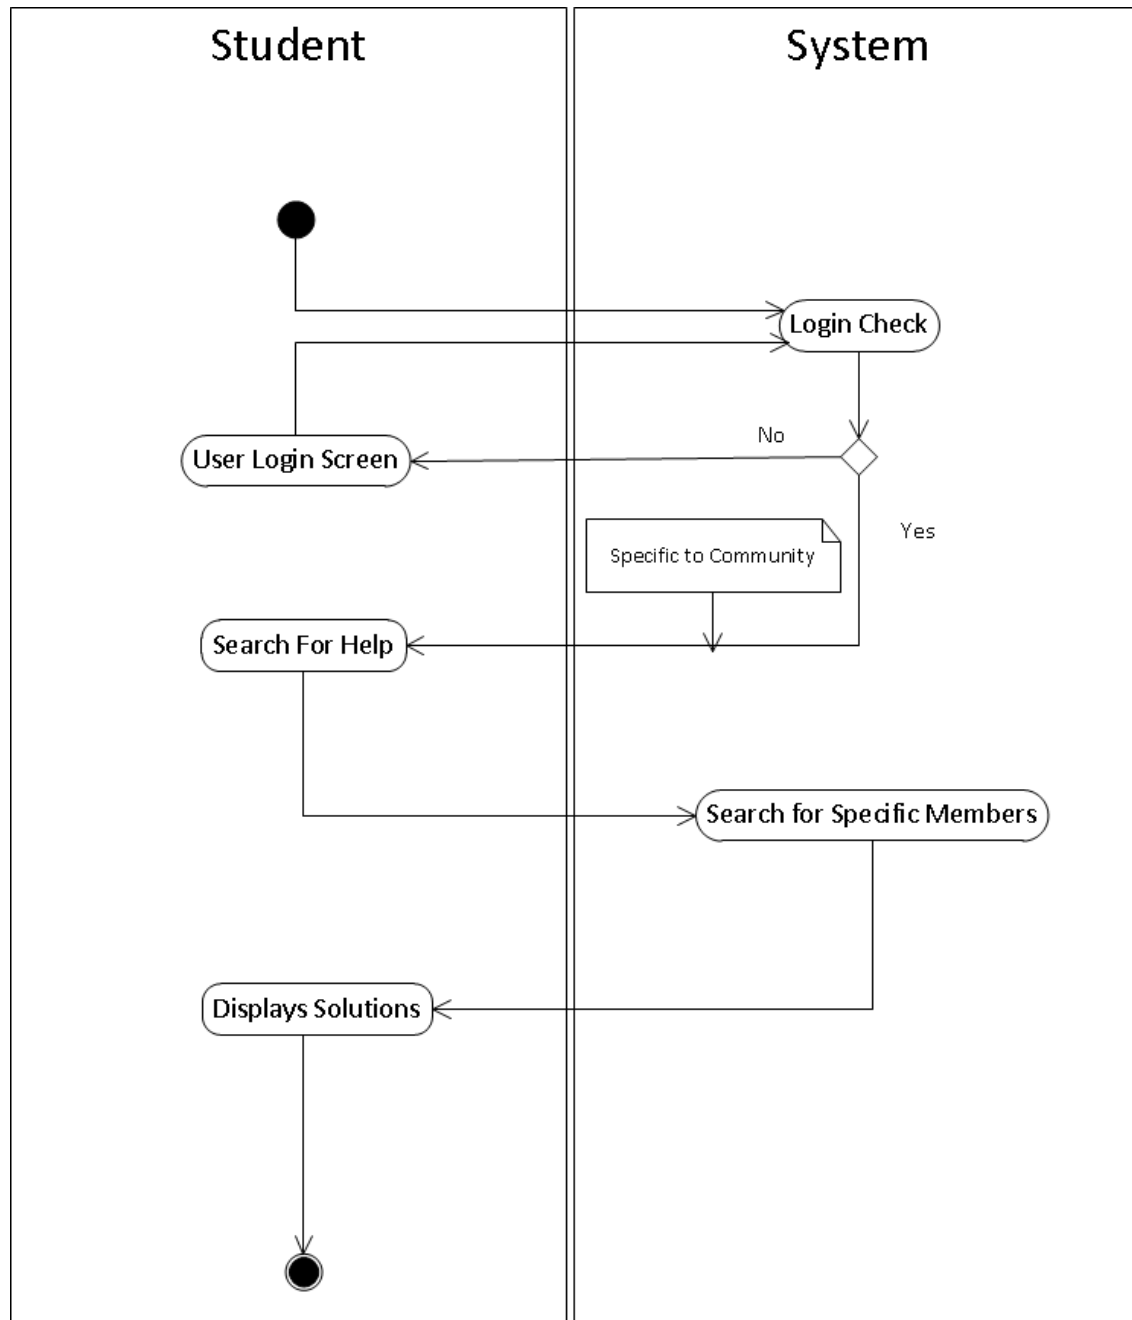

## COMMUNITY FORUM

This section is explicitly for students. Students can view/add/edit/delete post within their community.

## SEARCH FOR HELP

Student here can search other members in their group who are willing to lend help with specific skillsets.

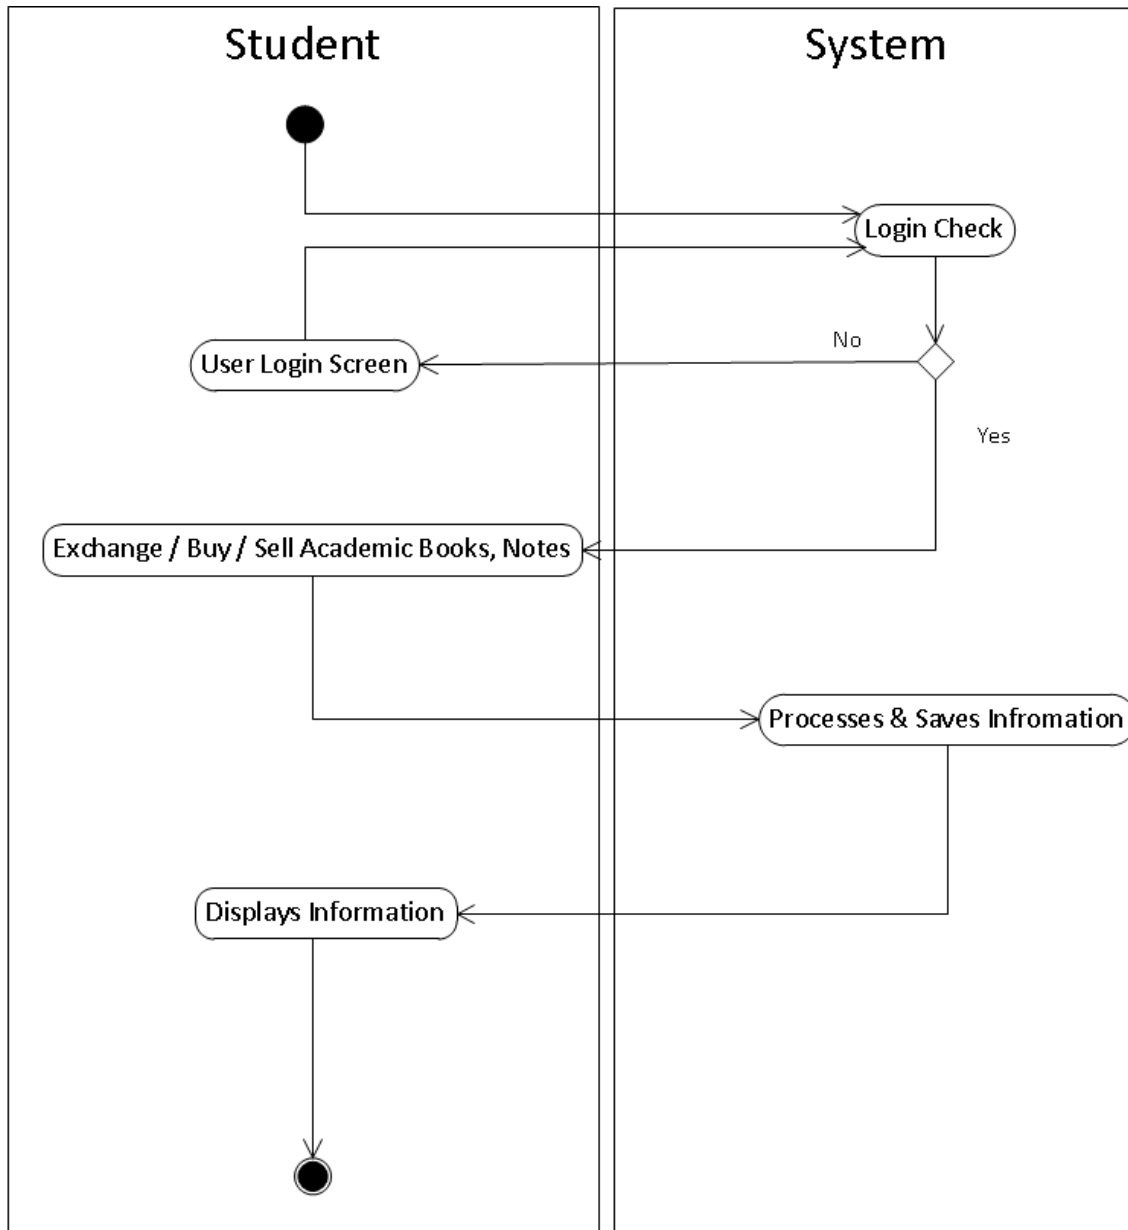

---

EXCHANGE/BUY/SELL - ACADEMIC NOTES OR USED BOOKS

---

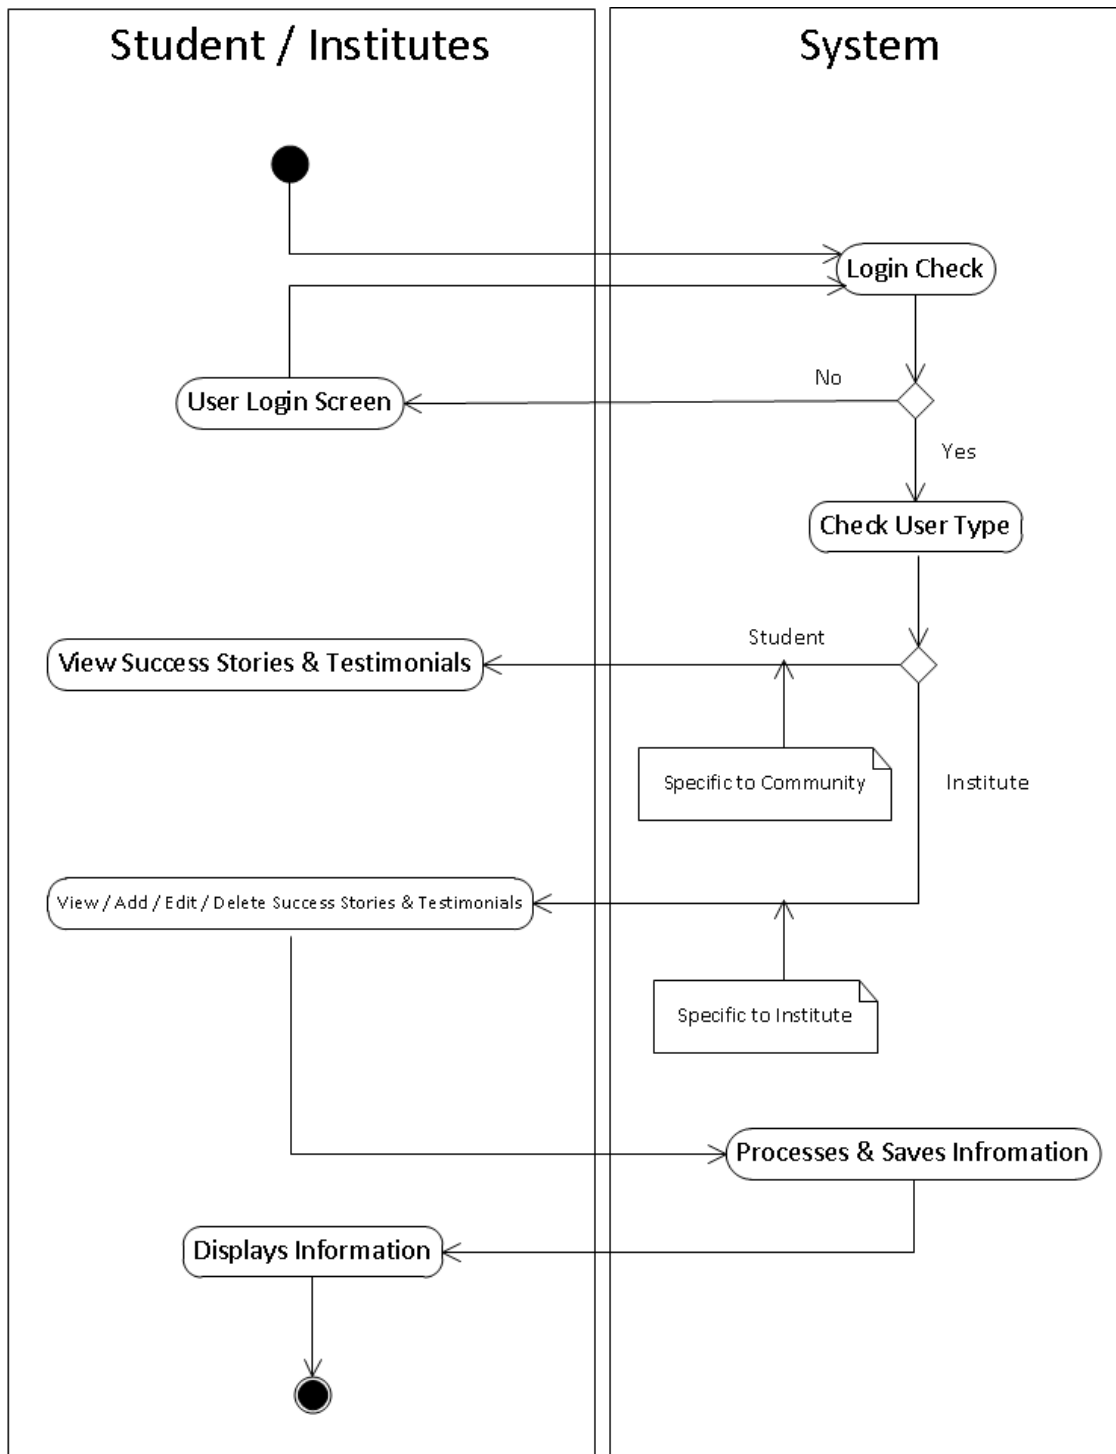

In this section students can post entries to sell their used books, notes. Other students can view/search these entries to buy them.

## Showcase

## Add/Edit or Delete a success stories or testimonials

Different Departments of the institutes can post success stories and testimonials. Students can view success stories & testimonials of graduate students of their specific community.

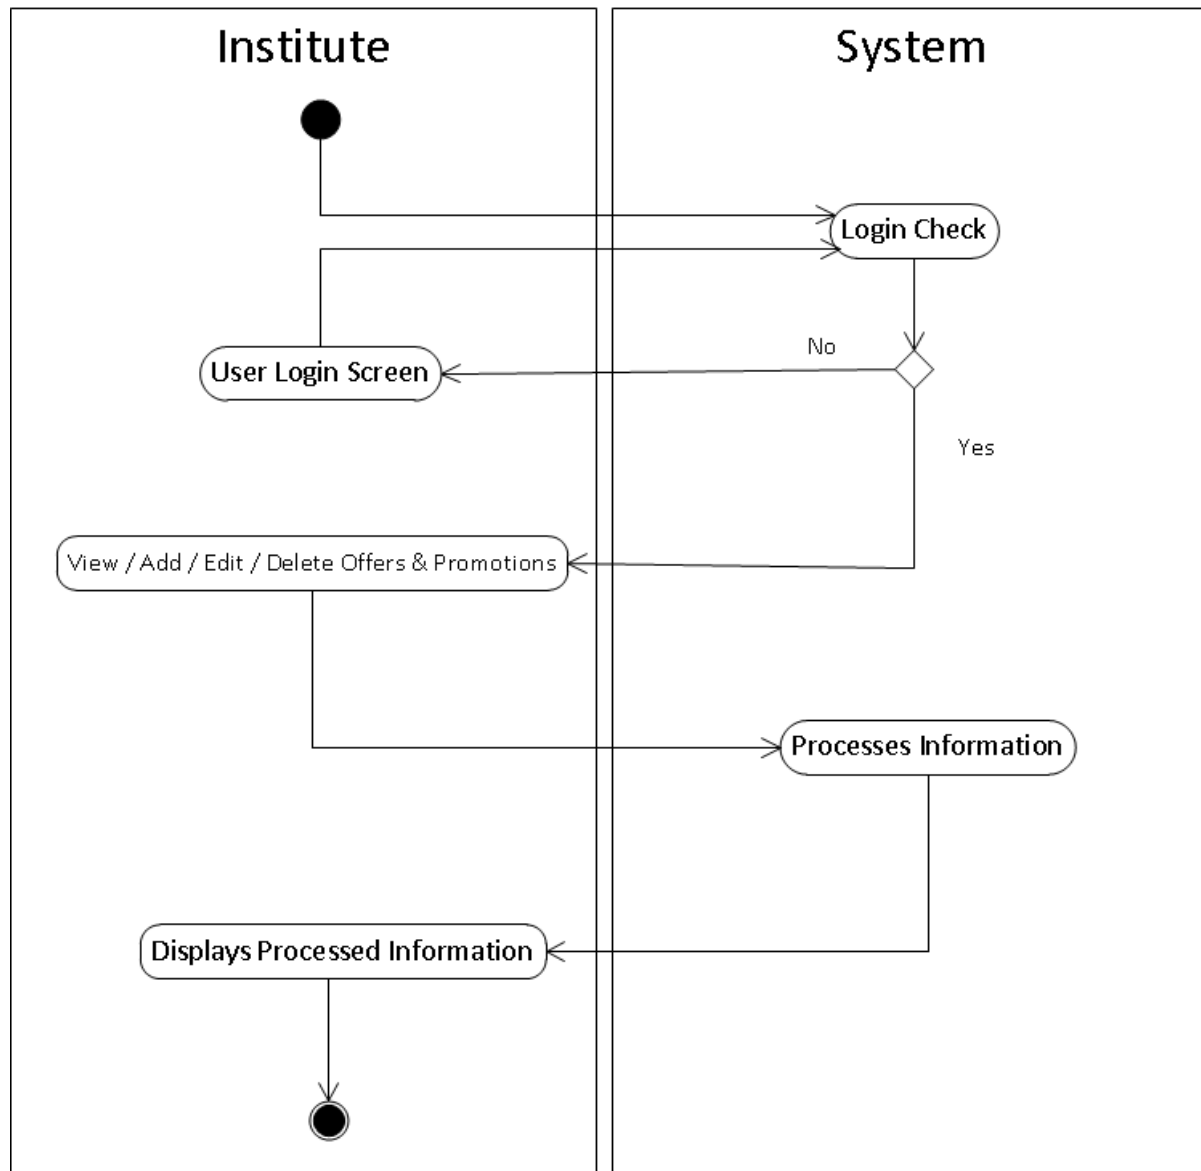

## Offers &amp; Promotions

## Add/Edit or Delete a post

## Institutes can post Offers and Promotions

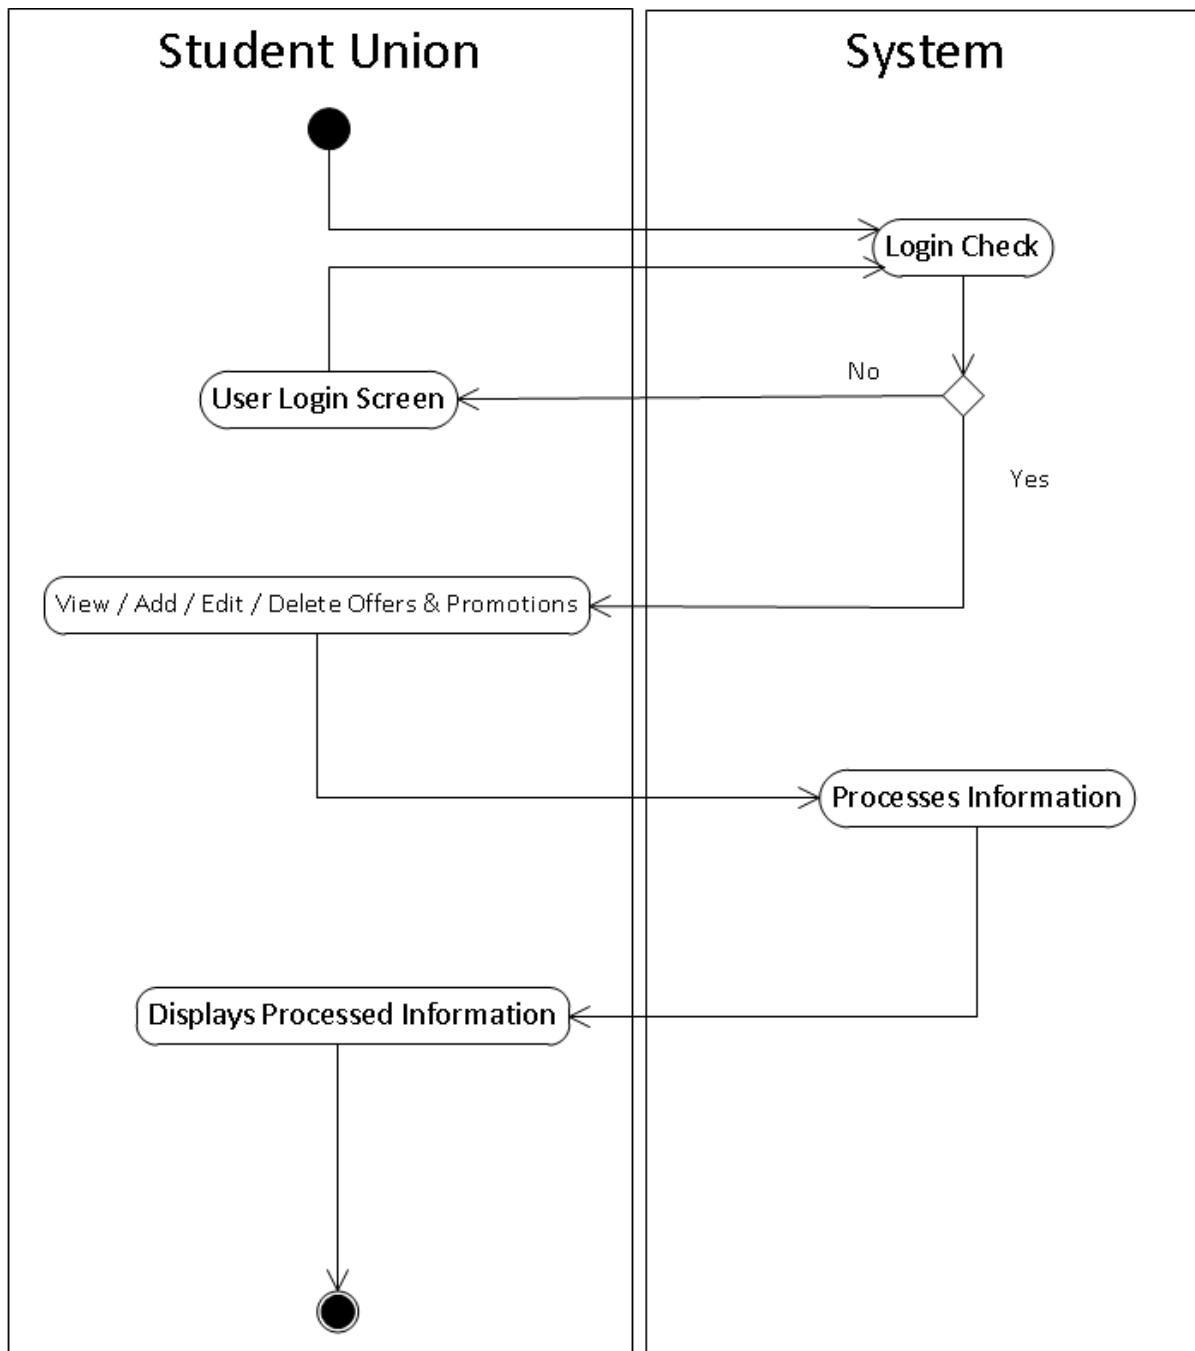

Institute can post their offers and promotions in this section.

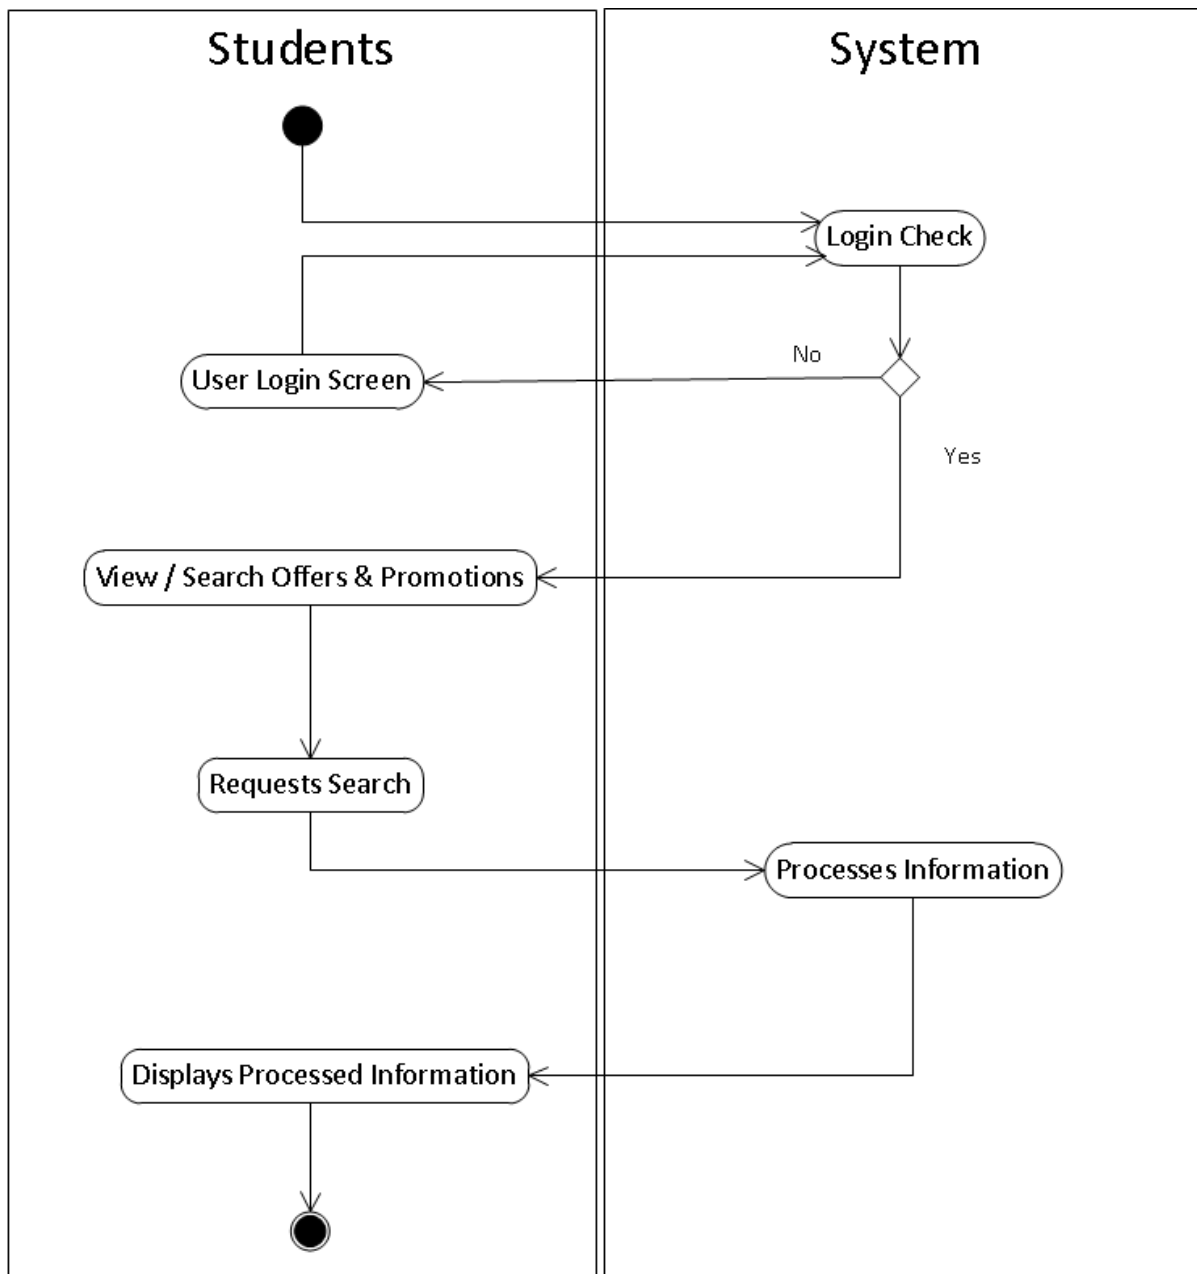

## Student Union can post Offers and Promotions

Student Union can post their offers and promotions here.

## Students can view News and Event

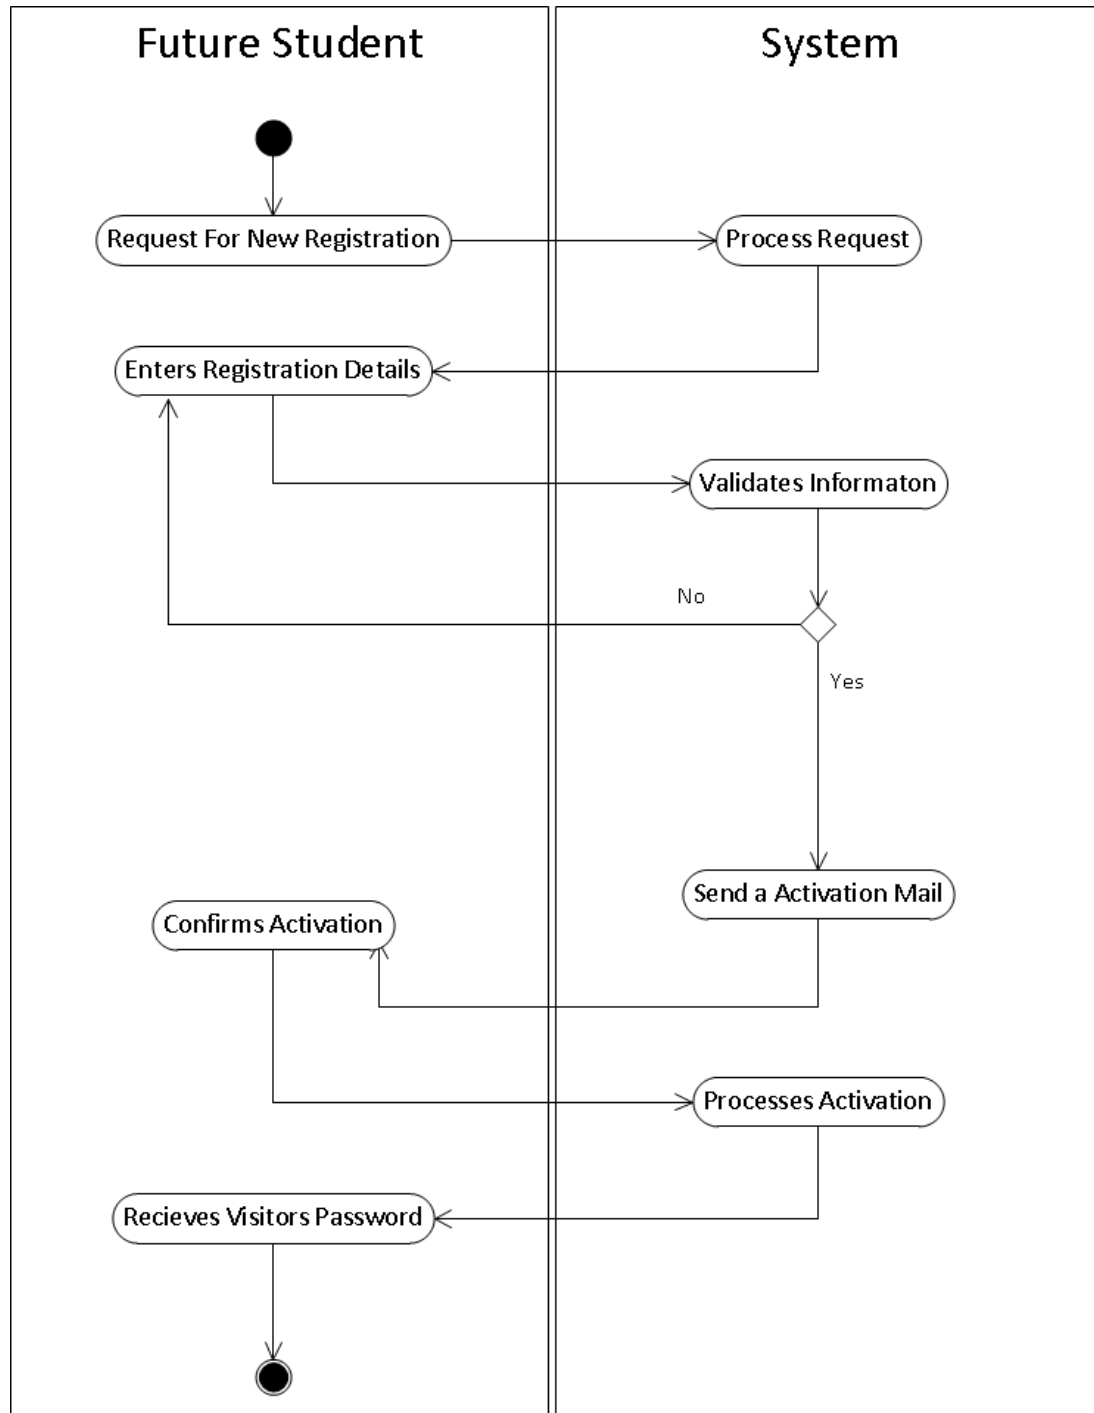

Students can view the ongoing offers and promotions in their institute and student union.

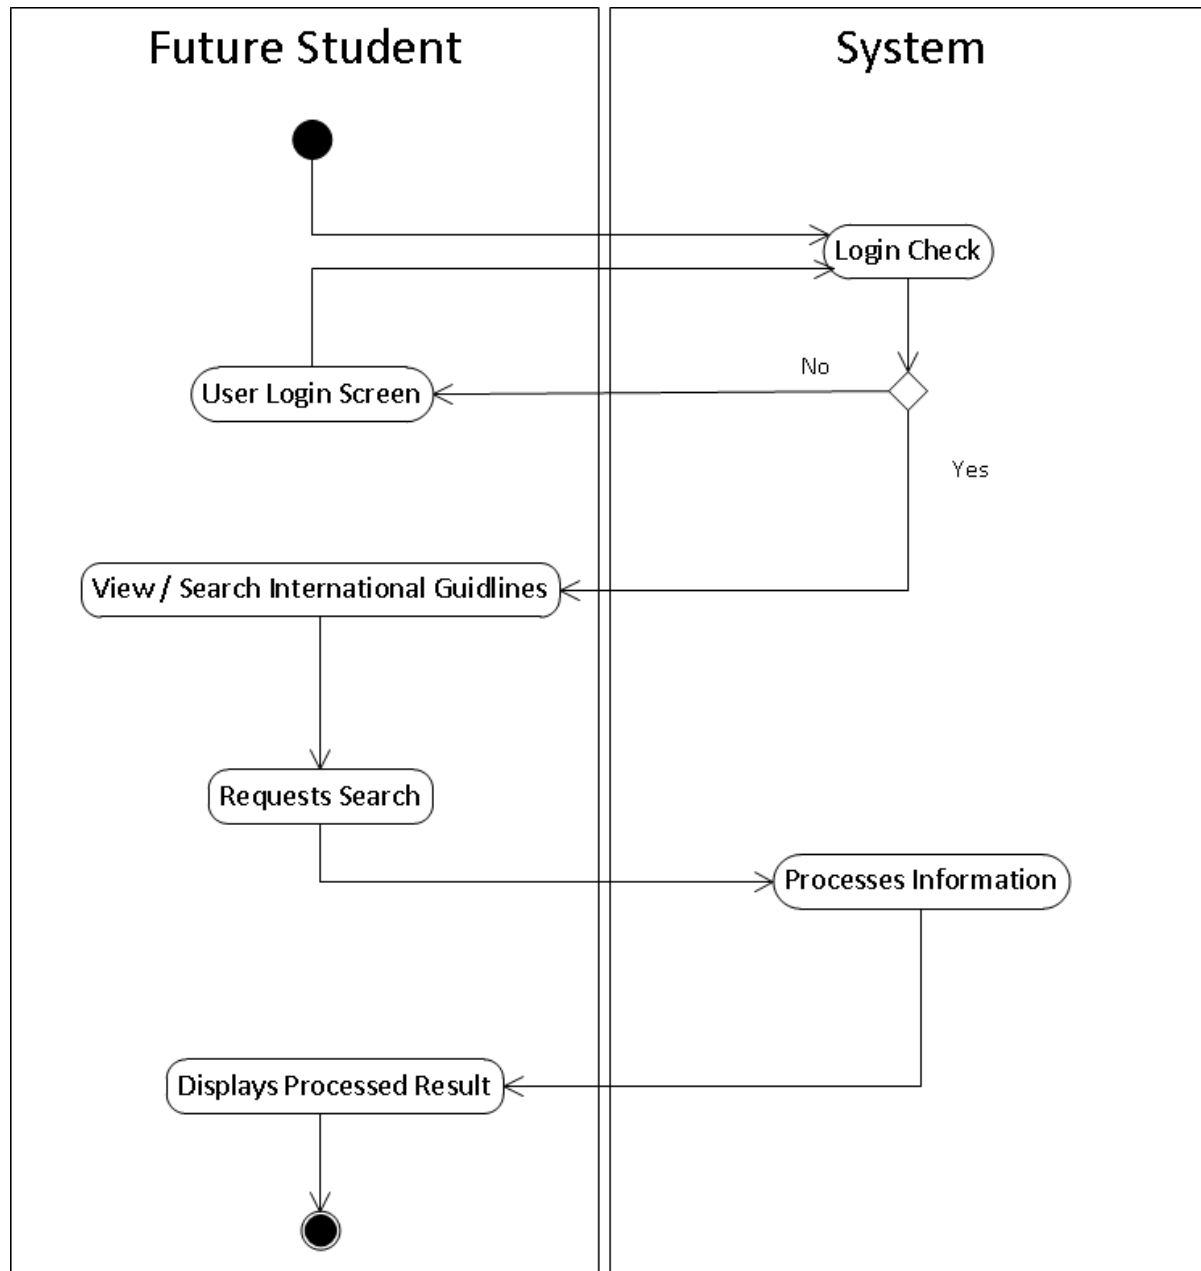

## International Guidelines

## Visitors Registration

In this section the visitor needs to provide their basic information. The system supplies them with their visitor password to access the International Student Information Section after validating their information.

Future Students from all over the world are able to view general information about Toronto in terms of Government Rules & Regulations, Transit System, Education System, Banking System, Accommodation System and Telecommunication system.

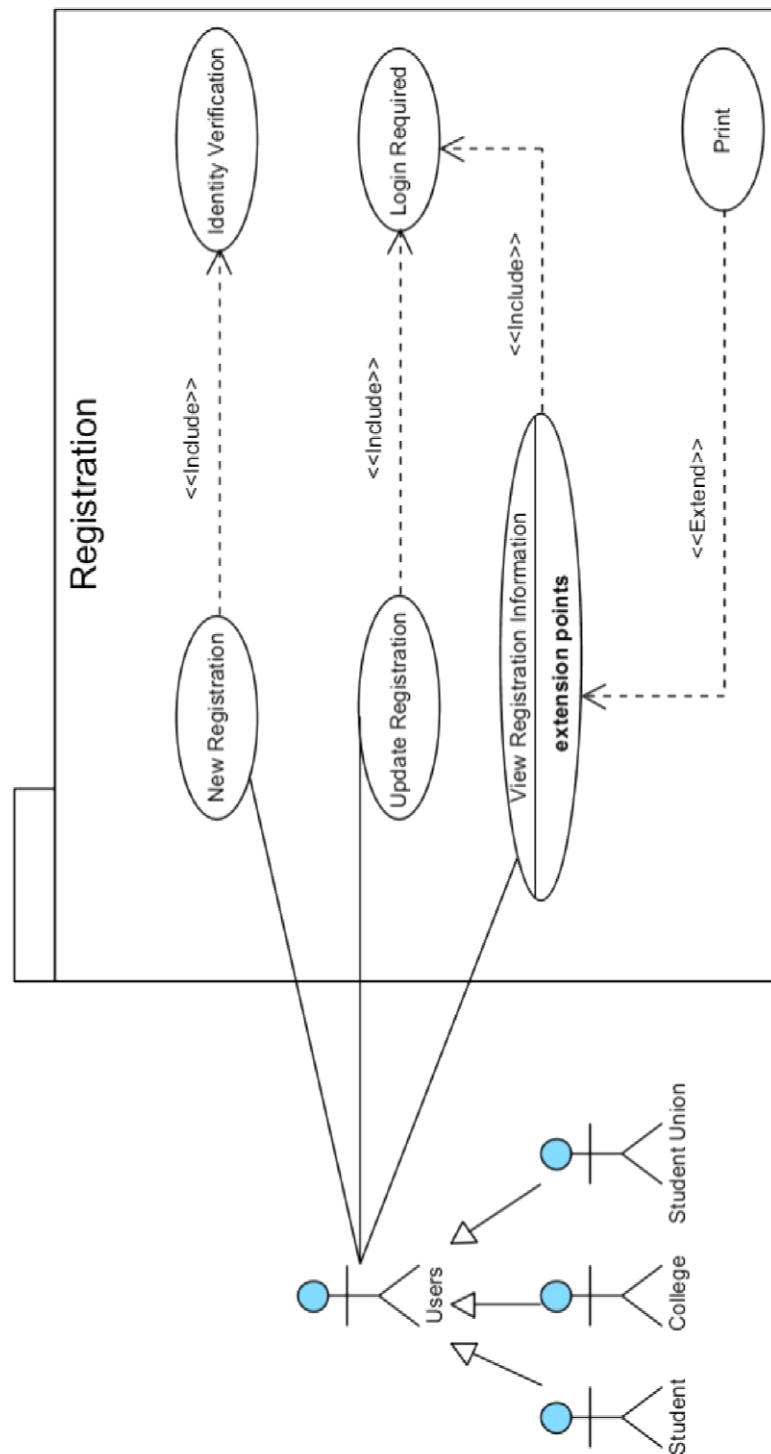

## USE CASES

## USE CASE LIST

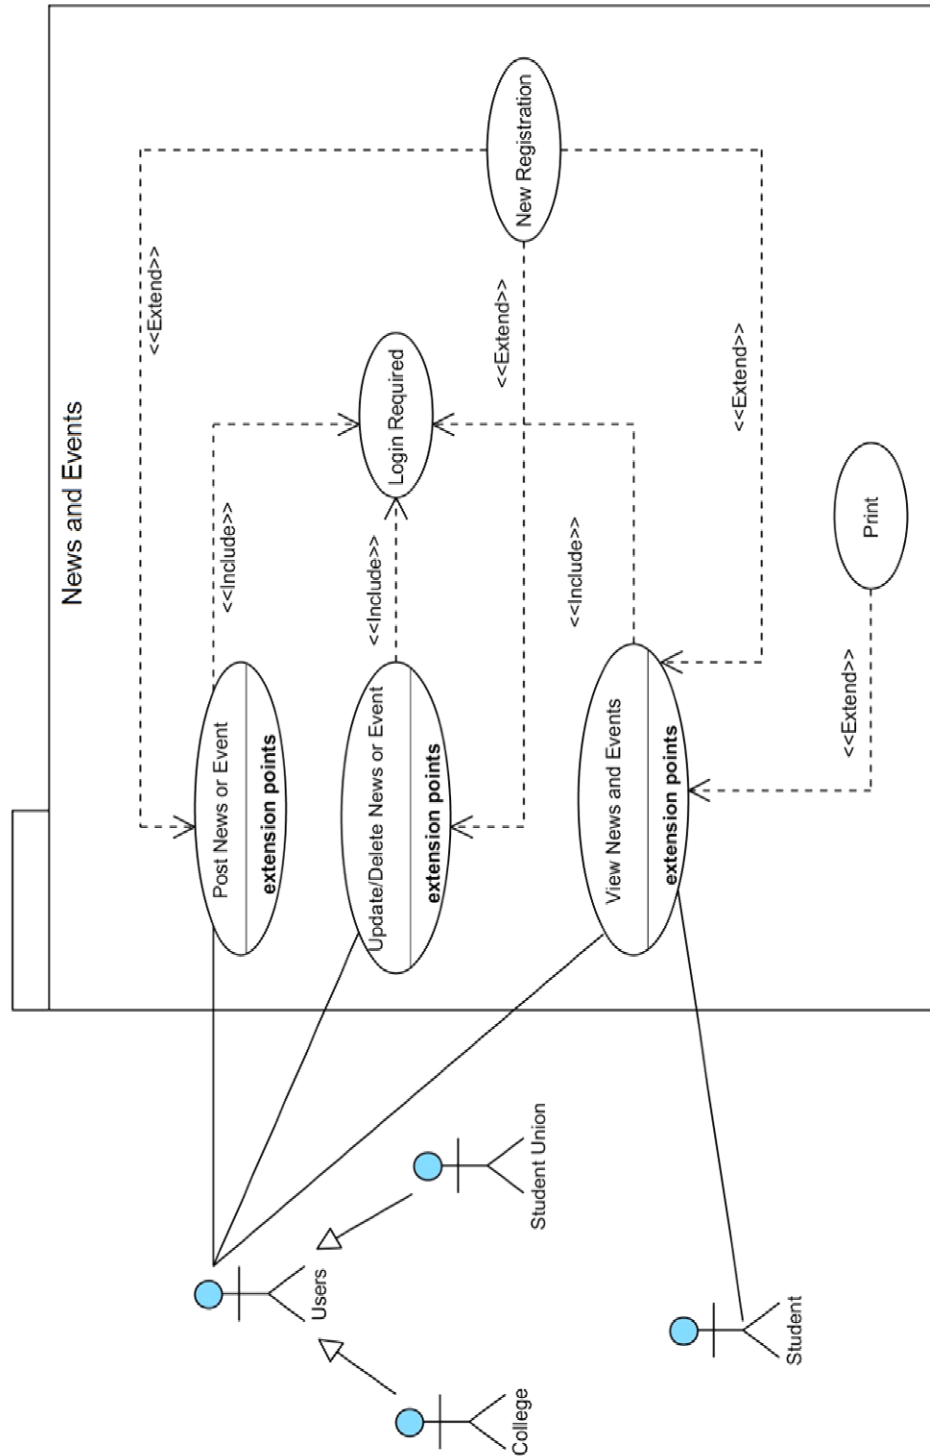

Packages	Sub Packages	Use Case ID	Goal Use Case	Description	Include	Extend	Generalization	Actor
Registration		1.0	New Registration	Register a new user and assign specific community if eligible. Provide username and password after verification Update the registration information Check user's current status and provide their registration information	Verify Identity Login Required Login Required	Assign Community		Students College Student Union
News and Events		2.0	Post News or Event Update/Delete News or Event View News & Events	Colleges and Student Union can post news and events. Colleges and Student Union can modify or delete posted news and events. Students, Colleges and Student Union can view posted news and events	Login Required Login Required Login Required	New Registration New Registration, Print		College/Student Union Students/ College/ Student Union
Community Joint		3.0						
	Community Forum	3.1	New Post Update/Delete Post View Posts	Student can post any information in their community forum. Student can modify or delete their post. Students can view all the post of their community.	Login Required Login Required Login Required	New Registration New Registration, Print		Students
	Search For Help	3.2	Search Help	Students can search for other people with specific skill set in their community willing to help.	Login Required	New Registration, Print		Students
	Book Joint	3.3	Add Book/Note Update or Delete Book/Note Search Books/Notes	Students can post advertisement to buy or exchange books or notes. Student can modify or delete the advertisement posted by them. Students can search for available books or notes	Login Required Login Required Login Required	New Registration New Registration, Print		Students
	Showcase	3.4	Add Success Story or Testimonial Update/Delete Success Story or Testimonial View Success Stories & Testimonials	College can post success stories and testimonials of old students. College can modify or delete success stories and testimonials. Students can view success stories and testimonials of old students who belonged to their community.	Login Required Login Required Login Required	New Registration New Registration, Print		College Students / College

## REGISTRATION

<b>Package</b>	Registration	
<b>Sub-Package</b>	-	
<b>Use Case Name</b>	New Registration	
<b>Use Case ID</b>	UC-1.0	
<b>Actor(s)</b>	Student, College, Student Union.	
<b>Brief Description</b>		
<b>Pre-Condition(s)</b>	User must have their official college email id.	
<b>Post-Condition(s)</b>	User's information is saved in the database and user is assigned a specific community along with a	
<b>Flow of Event(s)</b>	<b>Actor Input</b>	<b>System Process and Response</b>
	i. Clicks on Registration.	
		i. Shows a Registration form.
	ii. Enters appropriate information along with course name and college email id. Clicks on VERIFICATION Button.	
		ii. Validates the form information like availability of the username and password strength and sends an activation number with username and password to the user's college email id.
	iii. Accesses their college mail account to retrieve the activation number and enters it in the form and clicks the REGISTER Button.	
		iii. Process the information, assigns an appropriate community and stores information in the database. Allows the user to log into the portal for the first time.

<b>Package</b>	Registration	
<b>Sub-Package</b>	-	
<b>Use Case Name</b>	Update Registration	
<b>Use Case ID</b>	UC-1.0	
<b>Actor(s)</b>	Student, College, Student Union.	
<b>Brief Description</b>	User retrieves their information entered during registering and can make required changes that are updated.	
<b>Pre-Condition(s)</b>	User must be logged into the portal.	
<b>Post-Condition(s)</b>	Changes are updated into the database.	

Flow of Event(s)	Actor Input	System Process and Response
	Click on Update Registration Information.	
		Show an Update Registration Information form with the data retrieved from the database.
	Edit or delete the information and click on save	
		Save the updated information in the database.

<b>Package</b>	Registration	
<b>Sub-Package</b>	-	
<b>Use Case Name</b>	View Registration Information	
<b>Use Case ID</b>	UC-1.0	
<b>Actor(s)</b>	Student, College, Student Union.	
<b>Brief Description</b>	User can view their information and status on the portal.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	User can print his registration information.	
Flow of Event(s)	Actor Input	System Process and Response
	Click on View Registration Information.	
		Show users Registration information and their status in the portal.
	User can click on the print button.	
		Print the information displayed or save it as a PDF file.

## NEWS AND EVENTS (UC-2.0)

<b>Package</b>	News and Events	
<b>Sub-Package</b>	-	
<b>Use Case Name</b>	Post News or Event.	
<b>Use Case ID</b>	UC-2.0	
<b>Actor(s)</b>	College and Student Union.	
<b>Brief Description</b>	User can post a news or event.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	Information is stored in the database.	
<b>Flow of Event(s)</b>	<b>Actor Input</b>	<b>System Process and Response</b>
	User click on Post News or Post Event	
		System shows an appropriate form.
	User enters appropriate details in the form and clicks Post Button.	
		System stores information in the database and display's it on the user screen.

<b>Package</b>	News and Events	
<b>Sub-Package</b>	-	
<b>Use Case Name</b>	Update/Delete News or Event	
<b>Use Case ID</b>	UC-2.0	
<b>Actor(s)</b>	College and Student Union.	
<b>Brief Description</b>	User updates or deletes a news or event.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	Changes are updated into the database.	
<b>Flow of Event(s)</b>	<b>Actor Input</b>	<b>System Process and Response</b>
	User click on Update or Delete Button under the posted news or event.	
		System asks the user for delete confirmation if they have clicked a Delete button. System show an Update News or Event form if the user has clicked Update button.
	User confirms if he has pressed the delete button. User edits or deletes the information in the update form and click's on Save Changes button if the update button was clicked.	

# Academic Success – Education Networking Portal

		System deletes the posted news or event if the user has confirmed the deletion. System save's the updated information in the database if the user has clicked the Save Changes button.

<b>Use Case ID</b>	UC-2.0	
<b>Actor(s)</b>	Student, College and Student Union.	
<b>Brief Description</b>	User can view all the posted News and Events.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	User can print the information.	
<b>Flow of Event(s)</b>	<b>Actor Input</b>	<b>System Process and Response</b>
	User clicks on View News and Events Button.	
		System displays all the news and events on the
	User can sort the news and events date wise or can search for a particular news or	
		System processes the query and shows the resultant information on the user

## COMMUNITY JOINT (UC-3.0)

## COMMUNITY FORUM (UC-3.1)

<b>Package</b>	Community Joint	
<b>Sub-Package</b>	Community Forum	
<b>Use Case Name</b>	New Post	
<b>Use Case ID</b>	UC-3.1	
<b>Actor(s)</b>	Student	
<b>Brief Description</b>	User can add a post in their assigned community during registration for sharing information.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	Information is stored in the database.	
<b>Flow of Event(s)</b>	<b>Actor Input</b>	<b>System Process and Response</b>
	User clicks on Add Post button.	
		System displays the Add post form.
	User enters appropriate details in the form and clicks on Post Button.	
		System stores information in the database and displays the post to the user.

<b>Package</b>	Community Joint	
<b>Sub-Package</b>	Community Forum	
<b>Use Case Name</b>	Update/Delete Post	
<b>Use Case ID</b>	UC-3.1	
<b>Actor(s)</b>	Student	
<b>Brief Description</b>	User can update or delete their post.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	Changes are updated into the database.	
<b>Flow of Event(s)</b>	<b>Actor Input</b>	<b>System Process and Response</b>
	User click on Update or Delete Button under the post.	
		System asks the user for delete confirmation if the user has clicked a Delete button. System show an Update Post form if the user has clicked Update button.

# Academic Success – Education Networking Portal

	User confirms if he has pressed the delete button. User edits or deletes the information in the update post form and click's on Save Changes button if the update button was clicked.	
		System deletes the post if the user has confirmed the deletion. System save's the updated information in the database if the user has clicked the Save Changes button.

<b>Package</b>	Community Joint	
<b>Sub-Package</b>	Community Forum	
<b>Use Case Name</b>	View Posts	
<b>Use Case ID</b>	UC-3.1	
<b>Actor(s)</b>	Student	
<b>Brief Description</b>	User views all the post of their assigned community.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	User can print the information.	
<b>Flow of Event(s)</b>	<b>Actor</b>	<b>System Process and Response</b>
	User clicks on View Posts Button.	
		System displays all the post from the user's assigned community.
	User can sort the posts or can search for particular information.	
		System processes the query and shows the resultant information on the user screen.

## SEARCH FOR HELP (UC-3.2)

<b>Package</b>	Community Joint	
<b>Sub-Package</b>	Search of Help	
<b>Use Case Name</b>	Search Help	
<b>Use Case ID</b>	UC-3.2	
<b>Actor(s)</b>	Student	
<b>Brief Description</b>	User can search other members of their community with particular skillsets willing to lend	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	User can print the information.	
<b>Flow of Event(s)</b>	<b>Actor</b>	<b>System Process and Response</b>
	User clicks on Search Help Button.	
		System displays the Search Help Form.
	User enters appropriate details and selects appropriate options in the form and clicks on Search Button.	
		System processes the form and shows the Name and Contact information of the appropriate members from user's assigned community.

## BOOK JOINT (UC -3.3)

<b>Package</b>	Community Joint	
<b>Sub-Package</b>	Book Joint	
<b>Use Case Name</b>	Add Book/Note	
<b>Use Case ID</b>	UC-3.3	
<b>Actor(s)</b>	Student	
<b>Brief Description</b>	User can post an advertisement to sell or exchange a book or note.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	Information is stored in the database.

	User clicks on Add Book/Note button.	
		System displays the Add book or note Form.
	User enters appropriate details in the form and clicks on Add Advertisement button.	
		System processes the form and stores information in the database and displays the posted advertisement to the user.

<b>Package</b>	Community Joint	
<b>Sub-Package</b>	Book Joint	
<b>Use Case Name</b>	Update or Delete Book /Note	
<b>Use Case ID</b>	UC-3.3	
<b>Actor(s)</b>	Student	
<b>Brief Description</b>	User updates or deletes an advertisement regarding book or note posted by them.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	Changes are updated into the database.	
<b>Flow of Event(s)</b>	<b>Actor Input</b>	<b>System Process and Response</b>
	User click on Update or Delete Button under	
		System asks the user for delete confirmation if the user has clicked a Delete button. System show an Update Post form if the user has clicked Update button.
	User confirms if he has pressed the delete button. User edits or deletes the information in the update post form and click's on Save Changes button if the update button was clicked.	

		System deletes the post if the user has confirmed the deletion. System save's the updated information in the database if the user has clicked the Save Changes button.
--	--	--

<b>Package</b>	Community Joint	
<b>Sub-Package</b>	Book Joint	
<b>Use Case Name</b>	Search Book/Note	
<b>Use Case ID</b>	UC-3.3	
<b>Actor(s)</b>	Student	
<b>Brief Description</b>	User view can all the advertisements or can search for a particular Book or Note.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	User can print the information.	
<b>Flow of Event(s)</b>	<b>Actor</b>	<b>System Process and Response</b>
	User clicks on Search Book/Note.	
		System displays all the advertisement in the book joint section.
	User can sort the post or can search for particular Book or Note.	
		System processes the query and shows the resultant advertisements on the user screen.

## SHOW CASE (UC-3.4)

<b>Package</b>	Community Joint	
<b>Sub-Package</b>	Showcase	
<b>Use Case Name</b>	Add Success Story or Testimonial	
<b>Use Case ID</b>	UC-3.4	
<b>Actor(s)</b>	College	
<b>Brief Description</b>	User can post a success story or testimonial of a student.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	Information is stored in the database.	
<b>Flow of Event(s)</b>	<b>Actor Input</b>	<b>System Process and Response</b>
	User clicks on Add Success story or Add	
		System display's a Add success story or Add testimonial form.
	User enters appropriate details in the forms and clicks the Post Button.	
		System processes the form, stores the information in the database and view's the post to the user.

<b>Package</b>	Community Joint	
<b>Sub-Package</b>	Showcase	
<b>Use Case Name</b>	Update/Delete Success Story or Testimonial	
<b>Use Case ID</b>	UC-3.4	
<b>Actor(s)</b>	College	
<b>Brief Description</b>	User can update or delete a success story or testimonial.	
<b>Pre-Condition(s)</b>	User is logged in the portal.	
<b>Post-Condition(s)</b>	Changes are updated into the database.	
<b>Flow of Event(s)</b>	<b>Actor Input</b>	<b>System Process and Response</b>
	User click on Update or Delete Button under their posted Success Story or Testimonial.	
		System asks the user for delete confirmation if the user has clicked a Delete button. System show an Update Success Story or T estimonial form if the user has clicked Update button.
